Experience

Senior Associate Consultant   **Systems MEA (Techvista)**   *Dubai, UAE*   **11/2023 - Present**

- I got promoted to this position on basis of performance on my previous position.
- An integral member of the Dynamics 365 Commerce team, responsible for crafting customized enterprise solutions for a high-profile client base with a substantial financial portfolio, leveraging expertise in Dynamics 365 Commerce, React JS & Typescript.
- Conducting code reviews, optimizing code, and managing version control processes.
- Crafting an effective branching strategy for the project to streamline version control and seamlessly track team member onboarding and offboarding.
- Coordinating the supervision of DevOps boards, encompassing responsibilities such as orchestrating, assigning, and concluding tickets in alignment with completed tasks.
- Engaging with clients to comprehend their requirements, conducting thorough requirement analysis, devising solutions, and providing accurate estimations.

Junior Consultant   **Systems Limited**   *Islamabad, Pakistan*   **09/2023 - 11/2023**

- Led the design and development of an enterprise-level E-Commerce Solution for a client.
- Designed and implemented scalable Frontend solution using React, Typescript & Microsoft Dynamics Commerce while also making sure coding practices such as **single responsibility principles, error boundaries and event handling** are maintained throughout**.**
- Work on business problems and accurately and concisely articulate issues, risks, and questions to customers and team members.
- Continuous Integration/Deployment Pipeline Integration, pull requests, code reviews, load/stress testing, unit/integration/e2e testing

Associate Consultant   **Systems Limited**   *Islamabad, Pakistan*   **01/2022 - 09/2013**

- Contributed to various projects collaboratively with team members in different capacities.
- Conceived and implemented components to execute diverse tasks while meeting specified requirements.
- Enhanced pre-existing code to minimize network calls, resulting in improved site performance and responsiveness.
- Participated in multiple in house trainings & seminars to polish and learn new skills.

Trainee Consultant   **Systems Limited**   *Islamabad, Pakistan*   **03/2021 - 01/2022**

- Learned Micorsoft Dynamics 365 Commerce Frontend framework Completely.
- Participated in multiple projects as a shadow resource to apply the MS D365 Knowledge gained.
- Completed inhouse trainings to polish skills about Frontend Development, React, Next JS & Typescript.
- Partcipated in Pre-Sales teams to gather requirements from clients, helped me a lot in polishing my client communication skills.

Data Supervisor   **CECOS University**   *Peshawar, Pakistan*   **03/2020 - 09/2020**

- I gained a full time position in this organization on basis of my performance as an intern.
- Continued working on **EASY CECOS,** a Mobile Application & Web portal for Students and Teachers.

Software Engineer, Contract   **CECOS University**   *Peshawar, Pakistan*   **10/2019 - 02/2020**

- Worked on **Easy CECOS**, a mobile application and web portal for students and teachers.
